# MOGHAL MUZAHID ALI BAIG

+91 9966486551 — muzahidali385@gmail.com — github.com/Muzahid-19 — Nandyal, India

## Professional Summary

Entry-level Software Developer and recent B.Tech graduate in Electrical and Electronics Engineering (2026) with hands-on experience in Java Full Stack Development. Skilled in Java, Servlets, JSP, JDBC, MySQL, HTML, CSS, JavaScript, React.js, and Tailwind CSS, with knowledge of the MERN stack. Developed web applications including an Employee Management System, SmartFix, and Bitego, applying object-oriented programming, database integration, and responsive web development concepts. Seeking a Software Developer or Full Stack Developer role to contribute to application development and deliver effective software solutions.

## Skills

**Programming Languages:** Core Java, C++, JavaScript (ES6+)
**Frontend:** React.js, HTML5, CSS3, Tailwind CSS, Bootstrap
**Backend:** Java, Servlets, JSP, JDBC, Node.js, Express.js, REST APIs
**Database:** MySQL, MongoDB
**Tools:** Git, GitHub, Vercel, Apache Tomcat, VS Code
**Core Concepts:** Object-Oriented Programming (OOP), Collections, Exception Handling, Data Structures & Algorithms

## Projects

**Employee Management System (EMS)** GitHub | Live Demo
*React.js, Tailwind CSS, Context API, LocalStorage, Vercel*
- Built a role-based web app with Admin and Employee dashboards, with dynamic task assignment and real-time status tracking using Context API across 10+ components.
- Hosted on Vercel with automatic deployment on every GitHub push; used LocalStorage for fast persistent session data.

**SmartFix – Complaint & Service Management System**
*Java, Servlets, JSP, JDBC, MySQL, HTML, CSS, Apache Tomcat, Jakarta Mail*
- Developed a web-based complaint management system for apartments, colleges, and offices to replace manual complaint handling with a centralized digital solution.
- Implemented role-based dashboards for users, admins, and staff to raise complaints, assign responsibilities, track progress, and manage resolutions transparently.
- Streamlined complaint tracking, service history, and feedback to improve accountability, monitoring, and service response management.

**Bitego – Online Food Ordering Platform**
*Java, JSP, Jakarta Servlets, JDBC, MySQL, HTML, CSS, JavaScript, Apache Tomcat, Jakarta Mail*
- Developed a web-based food ordering platform that enables customers to browse restaurants, explore menus, and place orders online.
- Implemented order management, payment status tracking, order cancellation, and email notifications for customers and administrators.
- Designed the system to improve order processing, communication, and transparency while providing a convenient food ordering experience.

## Experience

**TAP Academy** **2026 – Present**
*Java Full Stack Developer Intern*
- Learning Java Full Stack: Core Java, OOP, Spring Boot basics, and JDBC, building towards end-to-end backend services.
- Building Java web applications using Servlets and JDBC, handling backend requests and database connectivity through structured full-stack assignments.

**Apna College** **June 2025**
*Full Stack Web Development Intern*
- Learned the MERN stack (MongoDB, Express.js, React, Node.js), building responsive web modules with React and Tailwind CSS, reusable components, and REST API integration.
- Practiced C++ and Data Structures & Algorithms (DSA) alongside full-stack development.

## Achievements

- Web Development Certification – Eduskills, June 2025 (React, Node.js, REST APIs)
- CGPA 7.9/10 throughout B.Tech while independently building and deploying web projects

## Education

**B.Tech in Electrical & Electronics Engineering** **2023 – 2026**
*Santhiram Engineering College, Nandyal* *CGPA: 7.9 / 10*

**Diploma in Electrical & Electronics Engineering** **2023**
*SVR Engineering College* *Percentage: 73%*
